Here's what a quick check finds:

Freedom Industries are listed as a non-FRP facility as the owner's of Etowah River Terminal. Here's a link to the FRS data about this location:

[http://iaspub.epa.gov/enviro/fii\\_query\\_detail.disp\\_program\\_facility?p\\_registry\\_id=110010851541](http://iaspub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110010851541)

There is not specific listing for the Freedom Industries site but I imagine they report as Tier II under EPCRA which goes directly to the state. This also might not be the most up to date information, I have some contacts in the FRS program if you want me to reach out and see if they can find anything else.

Yup, I'm assuming the Freedom Industries facility?

Hi steph,

What kind of facility info can you dig up on the facility on flexviewer? I think you have access to EPA databases on that thing right?
